SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Honorable Sir:

Pursuant to Section 1.97(c) of Title 37 of the Code of Federal Regulations, record is hereby made of information which the United States Patent and Trademark Office may wish to consider during examination of the above-entitled application. No representation is made or intended that a prior art search was conducted, or that no better art than that listed is available.

The present IDS supplements the IDS filed on October 24, 2003. Each item cited in this IDS was first cited in a communication from a foreign patent office in a counterpart foreign application not more than three months prior to the filing of this IDS. The communication consists of the Search Report of the European Patent Office, a copy of which is included herewith. The Search Report was sent to the undersigned by the EPO on October 1, 2004.

The present IDS is being filed after the period specified in 37 CFR 1.97(b), but before the mailing date of a final office action, a notice of allowance or an action that closes prosecution in the application. No additional fees are believed to be due.

It is requested that the documents in Form PTO/SB/08A be fully considered and made of record in this case. An English translation was not readily available for the German document (DE 24 60 448). Only an English abstract of the Japanese document (JP 2001336606) was available and it is included herewith. Copies of the cited non-U.S. patents listed in the Search Report are included herewith.

Respectfully submitted,

Stephen P. Evans
